

SCOTTSDALE AIRPORT PILOT “GOOD NEIGHBOR” PLEDGE

INSTRUCTIONS: We are requesting your voluntary assistance to complete the following **Pilot “Good Neighbor” Pledge** and return the bottom portion to: Airport Administration, 15000 N. Airport Dr., Suite 200, Scottsdale, AZ 85260.

There has been growing concern in our community about aviation activity negatively impacting the quality of life of our neighbors. These neighbors need to know that pilots using Scottsdale Airport care about the community surrounding the airport, and pledge to operate with consideration for residents concerned about noise and low flying aircraft.

This **Pledge** was developed to increase awareness of noise abatement procedures and the need to “fly neighborly.” A positive commitment by our pilots to operate as responsibly as possible, and to follow established noise abatement rules, demonstrates that pilots flying in and out of Scottsdale Airport have a stake in the community and are dedicated to safely reducing noise impacts.

More information is available at www.scottsdaleairport.com . For questions or suggestions, please contact Jennifer Lewis, Aviation Planner, at (480) 312-7609.

Thank you for your Pledge and commitment to “flying neighborly.”

AS A PILOT WHO IS CONCERNED ABOUT BEING A GOOD NEIGHBOR, MY GOAL IS TO:

- Safely operate aircraft in a responsible and courteous manner;
- Seek to learn and follow noise abatement procedures,
- Fly at the highest and safest altitudes, and avoid training activity over congested and residential areas;
- Follow AOPA Noise Awareness Steps and manufacturer’s noise abatement procedures whenever consistent with safety;
- Avoid flight during “quiet” hours whenever possible, 10:00 p.m. to 6:00 a.m., and
- Demonstrate your commitment to the Scottsdale Airport and its surrounding community by educating other pilots about the importance of noise abatement.

Please complete and return this form to: Scottsdale Airport, 15000 N. Airport Drive, Suite 200, Scottsdale, AZ 85260

This Pledge is not legally binding. It’s purpose is to show that pilots (1) are sensitive to the community’s concerns, and (2) support Scottsdale Airport’s role as a good neighbor.

I currently hold the following type of pilot certificate(s): _____

I own an aircraft: Yes _____ No _____, based at: _____ Airport

I mostly fly: Props _____ Jets _____ Helicopters, _____

- ☐ I have viewed or will view the Scottsdale Airport Website for updates on Scottsdale Airport information including noise abatement program information and pilot outreach communication: www.scottsdaleairport.com. Automatic information updates can be emailed to you when you subscribe to this bulletin service: <https://www.scottsdaleaz.gov/listserve>
